GUESTS ARE WELCOME!

We are thrilled to host birder, writer and photographer Don Reimer for a fun and informative presentation illustrating the amazing variety of birds to be found across Maine in the spring. Along with tips on identification and habitat, Mr. Reimer will fill us in on the places to find them in MidCoast and beyond. His popular column, "Birding with Don Reimer," appears bi-monthly in the Midcoast Villager. A Board Member of Mid-Coast Audubon Society, he has led field excursions for many local environmental organizations and his book *Seen Anything Good?* highlights six decades of birding experience.

A BRIEF CLUB BUSINESS MEETING WILL FOLLOW THE PRESENTATION
